About the BC Council for Exceptional Children

Since its inception, BC CEC has advocated for the inclusion of students with exceptionalities—those with disabilities and special challenges as well as those with gifts and talents. BC CEC is committed to individuals who work with students with exceptionalities—educators, support personnel, and parents—recognizing that these dedicated people require tools, resources, and professional opportunities to perform their jobs well. BC CEC supports these individuals by providing educational workshops and conferences on leading best practices throughout the year.
